The News.

We learn from Washington that in the conflict of expectation of peace in Utah, a portion of the troops ordered to that Territory, were to be sent to Oregon, where Indian hostilities have re-commenced, and another portion to be recalled to our North-Western settlements.

The Vermont Republican State Convention at Montpelier, on the 29th ult., was very numerously attended and harmonious in all its proceedings.

A destructive fire and a fatal duel between two Editors were among the daily incidents at New Orleans on Tuesday last.

The report of an Indian rising in Oregon, and the defeat of Col. Steptoe's command, are discredited at Washington.

A sad accident by drowning occurred at Port Jervis, N. Y., on Monday evening last. Two young ladies and their attendant were the victims.

The heat in the Atlantic cities, for several days past, has been intense, and many deaths from sun-stroke have occurred.

Intelligence is now hourly looked for from the Atlantic telegraph fleet, and the greatest anxiety prevails to hear the result of the second trial to lay the cable.

The "Land of Steady Habits" was, rendered quite uneasy, Tuesday night, by the unexpected shock of an earthquake.

The N. Y. Produce Market was again lower, with prospects of a still further decline. Our own market sympathized in its downward tendency; sales were few and buyers had come down \$20cts per bushel in their offers for Wheat.

Yesterday was another very hot day, the towards evening a breeze from the North-West, with a light shower, cooled the air a little.

Our City Post Office.

Col. MORTON STRAUS, our newly appointed Postmaster, takes possession of the Post Office in this City to-day. The Colonel, though a very zealous partisan, enjoys, in his individual capacity, the confidence and good opinions of his fellow citizens, and will, no doubt, discharge the duties of his office faithfully, efficiently and impartially.

CONSOLIDATION.—Arrangements have been perfected for consolidating the Democratic Press and the Tribune establishments, so that the joint proprietorship of Scripps, Brown & Co., of the Tribune, and of Ray, Merrill & Co., of the Press, will be consolidated.

The business of the new concern will be transacted at, and the various editions of the consolidated paper will be issued from this office, at 41 and 43½ East Water street.

The union of labor, industry, experience and capital, effected by the consolidation, justly promises a first-class newspaper, of larger dimensions than either the Press or Tribune, and more nearly meeting the wants of this city and of the North-West, than either of the two before it.

The first number under the new arrangement will be issued to-morrow morning, in the style of the paper will be fully set forth.—*Chicago Daily Press*, of yesterday.

"The consolidation of two such papers as the Democratic Press and the Tribune, ought to secure to Chicago one of the very best newspapers in the West, and second only to such papers as the New York Tribune. The "happy couple" have our best wishes for their enduring prosperity.

STEVENS POINT A CITY.—The ambitious and thriving young town of STEVENS POINT, as we learn from the Tribune, has thrown off its swaddling clothes and assumed the *tope viriles*, appropriate to municipal manhood. At their first Charter Election, held last week, the "Free and Independent" electors made choice of the following officers:

For the City at Large—Wm. Schofield, Mayor; A. J. Aldrich, Marshal; C. B. Jackson, Police Justice; H. B. Martin, Treasurer; J. C. Jones, Assessor.

In the First Ward—A. G. Hamacker, Wm. Brown, Alderman; G. D. Curtis, Justice of the Peace.

In the Second Ward—Martin Perkins, H. Ferguson, Aldermen; D. A. Agnew, Justice of the Peace.

The Pinery adds:

Unparalleled enthusiasm moved the winter. The officers chosen are good men and true; they will find employment for their leisure time; for the next six months.

DECREASE IN FOREIGN IMMIGRATION.—The last report of the New York Commissioners of Emigration shows a great decrease in the number of immigrants arriving at that port from the 1st of January to the 23d June. The arrivals for the period are, in fact, less than half those of the same date in the year. The number up to June 23, 1857, was 31,609; while that of the present year is only 30,450. The great falling off in immigration is no doubt to be attributed to the stagnation of industry and general business consequent upon the revolution. By next spring, when these shall have begun sensibly to revive, there will be a corresponding increase in the tide of immigration.

THE NEW YORK YACHT RACE.—The first prize, \$300, in this great Yacht race, has been awarded to the sloop *Maria*, which came in second. The *Reindeer*, BENNETT'S yacht, which got in first, was ruled out for taking a short cut, instead of sailing the entire course.

THE DAY OF STREMBANDS GONE BY.—It is stated that not odd side-wheel steamer now runs on Lake Erie, while a few years ago two or three a day cleared from Buffalo.

The Railroads and Propellers have knocked up steamboats.

Correspondence of the Chicago Tribune.

From Kansas.

WYATT, E. T., June 24, 1858.

The news by the return of Dr. Deere from the southern part of the Territory, is highly gratifying to every proslavery chieftain, and it is well known that he came to entice him to theanks of the people.

I learn that the commissioners and magistrates of the Free State side, such as were recommended to him by the people, and also some of the Free State men, who had been sent to entice him to theanks of the people.

The time has been when, for this simple act of manliness, the Governor would have had his head dropped into the basket; but as the "Admirable" was here with us, he failed to do it every brat is here with us, to fail to do it.

It is clear that for the future such demonstrations will be cautiously made, if not entirely abandoned. There is not the least sign of contest, anywhere discovered by my few friends of the English Brits, that will be able to stand up to the administration in too weak to rally any like a respectable faction in the territory.

Many who are with the administration in all other measures, are opposed to the Brits, and will vote against it.

From the Albany Evening Journal.

Abandoning the Ship.

The Buchanan Administration is sinking—the Rats run!—The old vicious Rat of the New York Herald, who has been so loud in praise of the Administration, "wears britches," and is off!—What is the prospect for the next Congress? In regard to the next Congress, the opposition, from all existing indications, have every reason to conclude upon a majority in the House of Representatives. The New York Tribune, however, has left its mark, and will be followed by the Democracy in every Congressional district. Superadded to this difficulty will be the drawback of the Administration's expenditures. We have shown recently that Mr. Buchanan's expenses are, as far as "all credit" goes, to be charged to the public treasury. All other Notices will be charged at the Regular Rates.

Extra displayed Advertisements, and those with large illustrations, by the square for the Premium.

The heat in the Atlantic cities, for several days past, has been intense, and many deaths from sun-stroke have occurred.

Intelligence is now hourly looked for from the Atlantic telegraph fleet, and the greatest anxiety prevails to hear the result of the second trial to lay the cable.

The "Land of Steady Habits" was, rendered quite uneasy, Tuesday night, by the unexpected shock of an earthquake.

The N. Y. Produce Market was again lower,

with prospects of a still further decline. Our own market sympathized in its downward tendency;

sales were few and buyers had come down \$20cts per bushel in their offers for Wheat.
